

Think **Act** Safety. **Safely.**

Sunday, March 18 @ 9:30 a.m.
Congregation Rodeph Sholom

SAFETY BEGINS AT HOME!

Learn how to recognize the signs of a potentially uncomfortable or dangerous situation, even in our synagogue.

We are being proactive in offering this very important program presented by SMG Corporate Services.

Being safe and raising your awareness is our goal.

Topics to be discussed through Powerpoint presentation will include:

- Developing a Survival Mindset
- What is Security Awareness? It Is Up to Us All
- Recognizing What is Not Normal Activity
- Developing Situational Awareness/Becoming a Trained Observer
- Run...Hide...Fight...

There will be time for questions and answers following the presentation!

What you learn here, you can take with you and hopefully never need...in the words of Benjamin Franklin, "An ounce of prevention is worth a pound of cure".

Reservations are not required for this FREE program; it would help for set-up if you let us know you will be attending. Call the synagogue office at 203-334-0159
